UC Santa Cruz is poised to implement its Strategic Plan for Internationalization. The goal, Comprehensive internationalization, is to ensure that all members of the campus community — students, faculty, and staff — are prepared and encouraged to study, teach, conduct research, and work in a global context, and that institutional policies, programs, and initiatives are aligned to achieve this goal.

This Implementation Plan prioritizes specific goals for immediate focus, followed by longer-term goals over the next three to five years.

_We must equip our entire campus community with the tools to communicate and collaborate across international and cultural boundaries._
